

Jitz

Study Royce Gracie Jiu-Jitsu, one move at a time.

Browse the Gracie Combatives curriculum and watch each technique.

WHAT JITZ DOES

Jitz is a personal study tool for the foundational **Gracie Combatives** curriculum — the essential self-defense techniques of **Royce Gracie Jiu-Jitsu**. Each technique lists its position and category, and the curated lessons link to a verified instructional video you can watch right inside the app.

Each move keeps a **watch count** so you can see how many times you've studied it, and you can rate the videos you watch (1–5 stars) to build a list of the instructors you learn best from.

WHAT'S INSIDE

Full Curriculum

Every Gracie Combatives technique, organized by position and category.

▶ In-App Video

Watch a verified instructional for each move without leaving the app.

Search & Filter

Find any move by name or position, or filter to the ones that have a video.

✓ Watch Count

Every move shows how many times you've watched it — saved on your device.

Rate Sources

Star the videos you watch to surface the instructors you rate highest.

My Dojo

Techniques taught to you in person are grouped and shown first.

WHO IT'S FOR

New Students

Working through the Combatives curriculum and want a clear map of every move.

Anyone Reviewing

Revisit a technique before class and watch it again, anytime.

On Your iPad

Installs like a native app and opens full-screen. An internet connection is needed to watch the videos.

Dojo Members

Keep the moves taught to you in person in their own group, front and center.

PRIVATE, NO ADS

Jitz installs to your home screen and opens full-screen like a native app. **You'll need an internet connection to watch the technique videos** — they stream from YouTube. Your watch counts and star ratings are saved **on this device only**; there is no account and no server.

And because it's **privately developed by Coniker Systems™**, there are **no ads — ever**.

GET JITZ ON YOUR IPAD

It's a free web app — nothing to buy, no App Store needed. To keep it on your iPad or iPhone so it opens full-screen like a normal app:

1. In **Safari** (you're likely here already), tap the **Share** button — the square with an arrow.
2. Choose **"Add to Home Screen."**
3. Tap **Add** — a Jitz icon appears on your home screen.
4. Open it from the home screen. It runs full-screen like a native app.

Want to send it to someone? Tap **Share** at the top of this page to text or email them the link and these instructions.

GETTING NEW FEATURES

New moves and features are added regularly. To get the latest version, just tap  **Update** on the home screen while connected to Wi-Fi — it refreshes itself, and your progress is kept. You can check the version number at the bottom of any screen.

Have an idea or found a problem? Tap  **Feedback** on the home screen to send it straight to us — your feedback shapes what gets built next.
